

# Brookville

PEDIATRIC + INTERNAL MEDICINE

## DRIVE-UP FLU CLINICS ARE BACK!

By appointment only, please call [616.243.5707](tel:616.243.5707) Option 2 or schedule via the portal. For scheduling via the portal see below for instructions. Keep in mind that there are only certain days and times available.

### A few things to know...

- The flu vaccine starts at 6 months of age. Children 6 months -8 years old will need **2 doses at 4 weeks apart** if this is their first season receiving the vaccine.
- Family units are welcomed and encouraged (must be Brookville patients). Just let us know how many will be coming when scheduling!
- If you have an **in-office appointment** in the next coming weeks, you can receive the flu vaccine at your visit, no extra visit needed.
- Please take a moment to look over the Vaccine Information Sheet (VIS) prior to your appointment to learn more about the flu vaccine for 2022. <https://www.cdc.gov/vaccines/hcp/vis/vis-statements/flu.pdf>

### So How Do Drive-Up Flu Clinics Work?

- When you arrive for your Flu Shot Clinic appointment, please remain in your vehicle.
- Dress for success! Patients over 1 year should wear short sleeves, patients 6 months-12 months should have bare legs.

- Position children in their car seat so the staff can easily administer the vaccine.
- We will have signs marking the parking spaces (see pictures below) designated for our Drive-Up Flu Clinics. In both our Rockford and Wyoming locations, we will be directing you to the parking lots in the lower level of the building.
- See you soon!

Dates for the clinics will be:

**Rockford Office:**

November: 3rd, 4th, 8th, 11th, 17th, 18th, 21st, 22nd, 29th

December: 19th, 21st, 28th

**Wyoming Office:**

November: 1st, 3rd, 7th, 10th, 15th, 17th, 22nd, 29th

December: 13th, 15th, 19th, 22nd
